Show Me
A Communication Tool for Emergency Shelters
This tool has been tested with and co-created by public health professionals and the populations it is designed to help, including:

- People who have cognitive disabilities
- People who are deaf or hard of hearing
- People who have limited English proficiency
- Anyone who may struggle to communicate verbally during an emergency

Tips to help you use this tool:

✓ Speak clearly and slowly.
✓ Look directly at the person when asking questions or giving instructions.
✓ Give directions one step at a time. Check for understanding after each step.
✓ Give the person time to respond to questions or instructions.
✓ Use hand gestures (movements) to help communicate.

Remember, good communication is key to helping people feel safe and calm during an emergency.
